

# Smoking Safety

Always smoke outside, never inside.

Do NOT toss your butt off the balcony. This can start a fire on a neighbours' balcony.

Butt out your cigarette into a study ashtray, metal can or pail. Soak with water or butt out into sand to ensure it's out.

NEVER put butts into potted plants or landscaping.

Do NOT smoke if you are sleepy, have taken medication or drugs that make you drowsy, or consumed alcohol.

Never smoke where medical oxygen is used.

Ask the property manager of your building for more guidance around smoking from balconies. It may not be permitted at some locations.
