

## **Draft Zoning By-law**

### **Table/List of Requested Site-Specific Exemptions**

#### **Overview**

The Subject Site is zoned General Commercial 3 (C3-66 & C3-2) under the Mississauga Zoning By-law 0225-2007. The commercial zoning regulation permits a range of uses such as retail, restaurants, personal service establishments, office, recreation establishments, among others. It is important to note that the site-specific permissions on the site do allow for residential uses within the eastern portion of the site based on a site-specific exception discussed further below.

Exception C3-2 pertains to the eastern half of the Subject Site which allows for live-work units to be located on the second floor of a building in accordance with the following: a maximum combined gross floor area for non-residential and gross floor area for live/work units is 24,030 square metres.

The C3-66 designation applies to the western half of the subject site and implemented additional permitted and non-permitted employment uses. The exception allows uses from the Employment Zone category E2 to be permitted, excluding uses that emit noxious fumes. Non-permitted uses included asbestos manufacturing, cement manufacturing and other potential toxic manufacturing processes. It should be noted that while the C3-66 does not explicitly indicate residential permissions, a review of existing tenants within the building has revealed that there are residential units within the building municipally known as 1590 Dundas Street East.

The following provides an overview of the existing and proposed zoning regulations on a Block by Block basis. Schedule 1 indicates the proposed zoning changes which are discussed in detail below. Height Maps 1 to 5 are included following the Zoning Comparison Tables and outline the maximum height permissions for the proposed buildings, excluding mechanical elements, projections, and encroachments, as defined in the Tables below.

#### **Block A**

Block A is currently zoned C3-66 (General Commercial – Specific Exception 66) with western portions of the existing block identified as Greenlands Overlay as per Zoning Map 12 of Mississauga By-law 0225-2007.

The Zoning By-law Amendment proposes to rezone to lands from C3-66 (General Commercial – Specific Exception 66) to RA5-XX (Residential Apartment Zone 5 – Specific Exception XX) in order to permit the proposed mixed use development of the block, which will feature high density residential, and retail uses. The Table below provides an overview of the base permissions of the C4 Zone and how the site specific exception RA5-XX responds for Block A.

### **Block B (Park)**

Block B is currently zoned C3-66 (General Commercial – Specific Exception 66) and is located in the southwest corner of the subject site. The Zoning By-law Amendment proposes to rezone to lands from C3-66 (General Commercial – Specific Exception 66) to OS1 (Open Space – Community Park) in order to permit the proposed community park including both passive and active recreation facilities. The Table below provides an overview of the base permissions of the OS1 Zone and how proposed OS1 zone responds for Block B.

### **Block C**

Block C is currently zoned C3-66 (General Commercial – Specific Exception 66) including the existing western portions of the block identified as Greenlands Overlay as per Zoning Map 12 of By-law 0225-2007. The Zoning By-law Amendment proposes to rezone to lands from C3-66 (General Commercial – Specific Exception 66) to RA5-XX (Residential Apartment Zone 5 – Specific Exception XX) in order to permit the proposed mixed use development of the block, which will feature high density residential, retail and community uses. The Table below provides an overview of the base permissions of the RA5 Zone and how the site specific exception RA5-XX responds for Block C.

### **Block D**

Block D is currently zoned C3-66 (General Commercial – Specific Exception 66) and generally constitutes the western portions identified as a part of the Greenlands Overlay as per Zoning Map 12. Block D is identified as Natural Hazards in which no development activity, below grade or above grade, will take place. As such, the Zoning By-law Amendment proposes to rezone to lands from C3-66 (General Commercial – Specific Exception 66) to G1 (Greenlands - Natural Hazards), thereby increasing the total area buffer area between the development and the Little Etobicoke Creek as well as facilitating conservation of natural heritage features. The Table below provides an overview of the base permissions of the G1 Zone and how the proposed G1 Zone responds for Block D.

### **Block E**

Block E is currently zoned C3-2 (General Commercial – Specific Exception 2) which fronts onto Dundas Avenue East and occupies the north portion of the east block of the subject site. The Zoning By-law Amendment proposes to rezone to lands from C3-2 (General Commercial – Specific Exception 2) to RA5-XX (Residential Apartment Zone – Specific Exception XX) in order to permit the proposed mixed use development of the block, which will feature high density

residential, and retail uses. The Table below provides an overview of the base permissions of the C4 Zone and how the site specific exception RA5-XX responds for Block E.

### **Block F and G**

Block F and G are also zoned C3-2 (General Commercial – Specific Exception 2). The Zoning By-law Amendment proposes to rezone the lands from C3-2 (General Commercial – Specific Exception 2) to RA5-XX (Residential Apartment Zone 5 – Specific Exception XX) in order to permit the proposed residential development blocks, which will feature high density residential, mid-rise buildings and back to back townhouses. The Tables below provide an overview of the base permissions of the RA5 Zone and how the site specific exception RA5-XX responds for Block F and G.

### **Maximum Gross Floor Areas**

The lands subject to this by-law are permitted to accommodate a maximum gross floor area in accordance with the following:

#### **Overall GFA – 220,012**

- Residential GFA – 211,994
- Non-residential GFA – 6,094
- Community GFA – 366
